JeepRubi wrote on Tue, 29 September 2009 20:00it's still the 29th here for 4 more hours, and don't expect the links till about mid-day EST.

<http://www.eastern-standard-time.com/>

Apparantly EST is GMT-5 most of the time, however due to daylight savings, it's currently GMT-4.

At the time of this post it should be about 04:00 where you are. Meaning there's about Eight hours till we see the links.

This is great news, as I will be getting home at pretty much that exact same time! Nice
