I am with luv on this one.

I tried out Ren X now. Quiet good eyecandy. Played the Instant Action just to see the 2 maps and drive/use all the available vehicles and used all the characters. Good stealth effect as well and immersive and nice maps.

That being said, however, personally, I found "something" missing. I guess a certain feel to it I suppose...I never "fit in" with any of the recent high end graphical titles and though Ren X has C&C Mode, unfortunately it was no exception to my allergy to high end graphical games.

This remake will make many many people happy though. So game on.
