I hesitated for the longest time to make any "public" announcements about this CHEAT crap.

For those of you that know me I'm a computer guy and a Renegade fanatic. I've been working on a website and some ideas for anti-cheat (more or less a code of ethics, if you will) for some time.

After the rise of speculation, I've talked with some of the major figureheads of the GSA clans and a couple of the more senior WOL players (and even a couple \*will-not-be-named\* programmers that have helped in situations like these before) ---and we're going to get together to bring some resolution to this.

I'm sure there are multiple projects in the works right now, but I'd like to concentrate the expertise to a single effort if possible.

I ask that anyone that has the technical "know how" to assist in any facet of the project to get a hold of me at your earliest convenience.

You can contact me directly at [cryptowizard@speakeasy.net](mailto:cryptowizard@speakeasy.net)

Regards,
