Once you kill them, Locke sends in one of those reinforcement crates with a ramjet with full ammo in it. You can find the reinforcement crate in that same room that has that Seth guy from Tiberian Dawn frozen in that tube, but only AFTER you save Sydney and AFTER you dispatch the railgun Black Hand. This entire time you have to make sure Sydney doesn't die (Which can get a bit tricky in the Tiberium pit), since if she dies you lose the mission.

Is this for real? I remember there was a Black Hand with a ramjet on top of the communications center...I got up there by changing the gravity of the vehicle I was in...the ramjet had 1 round per clip, so it was pretty useless.
