Hello, I'm new.

Anyways, I was just have a few questions for who wants to answer them.

1. How many maps are in the mod RenAlert? Because I downloaded it, it looks sweet but I only have the one map, ass in the grass or something like that.
2. What mods are still active and are awaiting release?
3. Is the Reborn one still being made?

Alright I'm done. Thanks whoever answers that.
