Firstly, I know nothing about coding and have never claimed that I do. I essentially have two roles in TT.

1. balance consultant - making sure changes won't imbalance the game at all levels of play (which is not the same as "but we don't like it")
2. sorting the ladder out

odd, I don't see a00 nickname fixer in there.

Probably because game listings are most likely going to be re-organized anyways, thus making the whole a000 nicknames a moot point.

If that's the case why is this such a big deal all of the sudden?
