Hey all

I am looking to download the first official Renegade trailer.

This is what I need:

<http://www.youtube.com/watch?v=OW0be4o9jbs>

But I need a non-YouTube version with good quality. This is to get some reference for one of the characters shown.

I looked thru some of the top C&C site but couldn't find a download. If possible, can anyone help me out in finding this video for download? much thx!
