Subject: Problem with hud :/
Posted by crysis992 on Thu, 08 Oct 2009 16:02:16 GMT

Hey

i have a little problem, madrackz is working on a new hud, with new shaders.dll

the hud works for madrackz, but not for me, if i add his shaders.dll to my renegade folder and try to start my game then comes a 5 sek black screen and then it goes back to desktop without any error messages.

Can someone help me?
