StealthEye wrote on Fri, 09 October 2009 10:51It's true that servers with a 126 max player count will end up on top though. Don't really think that's desirable. However, I don't think there's something better to sort on... Perhaps just random.
Goztow wrote on Fri, 09 October 2009 11:35your point being?
Goztow wrote on Fri, 09 October 2009 09:07Passworded never need to be shown on top, nor need non dedicated serevr to be: people that want to join those are looking for them. So what Seye says makes sense .

Organize by population, have the people that are looking for you send you an invite. I'd much rather not look at Renegade's bounty of empty servers.
I'd think it made a lot more sense to sort empty servers by ping.
