liquidv2 wrote on Tue, 13 October 2009 19:18 explain how you got to this based on what i said

Quote:With the map transfer stuff, fanmaps would be ALOT more popular anyway (atleast more than they are now), so yeah, it wouldn't just be 1% of the ren community, lol.

i'm against using any and all mods or fanmaps because i think this one just so happens to be stupid...ok!1!!111

i personally can't wait for the automap downloader because mappack servers will be amazing with a decent number of players ingame

It would majorly affect modded maps and mods in general... therefore, with the auto map downloader, it would affect a hell of a lot more than just 1%.

I for one would like to see more fucking awesome co-ops.
