archerman wrote on Wed, 14 October 2009 09:34the last good nfs game i remember is high stakes, unfortunately.

has anyone played shift yet? is it good? because unlike the critics, the players think otherwise here:

<http://www.metacritic.com/games/platforms/pc/needforspeedshift>  
Well my score is even lower (looking to it as ND4SPD):  
3/10

Looking at it as if it's a whole other game (like critics i guess):  
7.5/10

My play worthyness score:  
5.5/10

It gets kinda bored soon
