country meadows,riverraid(doesnt even work),and basin...3 maps you made....Are you counting city flying version 1.0-1.3 and the 3 glaciers you did??and a bunch of other version's of WW maps??

Claim that you made 100 maps for all I care....and the tutorial...is practiclly useless.

hold up ...5 maps!....Flightdeck and medical level...both unoriginal creations.

Youve helped the community by supplying and fixing unfinished maps,That's greatly appreciated.

Someone needs to float back down to earth now.
