So I've lost interest, I have other things to attend to; and in a serious relationship. I no longer have the time or patience to develop any more for renegade. However, this is not what this thread is about.

I have made some funky stuff, and I'm going to share the source of it all. So, here it is:

(Note, everything here, as far as I know was written by me (except the scripts.dll, ofcourse).
There is definitely not any TT source here.)
