well yes but they wouldnt go to those people if ACK didnt tell them his opinion cus then they wouldnt get "pissed" and try to show him off

i know how some of these people feel and think cus i was totally the same a couple of months ago, i almoast hated him (and only almoast since its REALLY stupid to hate someone online)but now im actually kinda gratefull cus if he hadnt been telling me that my stuff looked like crap i would have wanted to improove so badly
