That, and there's plenty more material out there to enjoy, and because most of it comes in the form of television episodes, you don't have to watch all of it to know what the hell is going on.

On the other hand, Star Wars is just flashy smoke and mirrors. Laser swords? "The force"? It's like Lord of the Rings in space.

Also, Star Trek has this man:

Fuck. You have a good point.

Star Wars USED to be pretty cool, though, despite it being pretty showy. Nowadays, it sucks balls :[. It's like watching Naruto or Bleach- you have to wait 100 fucking episodes for anything to happen, and the rest is retarded bullshit no one cares about.
