I was wondering if there is anyone here who lives in Holland (amsterdam).

This year there is a so called 'VFX Beurs' again (next wednesday 21-oct-2009) and if there are dutchies here: Is one of you going too??

I'm definitely going so if there are some of you here that also go maybe we see/meet eachother

PS. I typed english so the not dutchies can also read it, although that's pretty useless unless they want to travel to amsterdam for a day
