---

LOL I just got a new computer and i used a USB Stick to transfer my Renegade FDS and The BRenBot 1.52 it worked fine out on my first PC but when i openend it on the other PC with the same settings it was opend in a few seconds after that there come som text but it goes really fast i can only see it have somthing to do with som INI Settings but it is configured like it was on the other PC and it worked out fine there! I dont know what to do so please help!
