Right, a site is the only thing that makes skimmers make skins. Dumbass, if they really liked the game and skinning it, they would still work on it regardless of a shitty fucking website no one gives a shit about except its members. If they leave skinning and Renegade altogether because of that, good, that means they're most likely just pumping out shitty skins anyway.

But if these forums died, I guarantee that a good lot more of Renegade would too.
