hey, seems complex for me but il try and give it ago

i had another question il just ask here, rather than start a new topic

im trying to change some other skins as well, like maybe the building walls or a soldiers face

there all dds files, but when i tried to use a edited havic skin. it didnt change anything ingame

just wondering if there is something else that has to be done or how they should be saved from photoshop

im only using the ones i extract from xcc mixer, but im missing something

help please
