Umm, just want to bring this up, I have tried this before, and you have to MAKE SURE IT IS IN PROPER FORMAT! There is a tut around here somewhere (Renmaps?) for installing sounds into renegade, use that once you have the sound files isolated from ZH.

NOTE: If you didn't already know, the sounds are in a ".big" file, so you HAVE TO download a ".big" extractor (I suggest FinalBIG) and extract the files you want. If you would like some help, I have experience modding both of these games in this kind of aspect, and I would help in more specific details if you provided them.
