<http://www.pokemonca.net/rh/uploaded/perma/3dsmap/MapTut.swf>

I never liked how they put all the videos up on youtube and in terrible quality

yes i am but i can't get the w3d exporter to work?

got any clues?

and i don't like how they got other peoples names on someone else Tut, or how they don't have the downloads like you did..

I wish RenHelp.net was still alive cus they really fucked it up, don't get me wrong i like game-maps.net for some stuff.
