GEORGE ZIMMER wrote on Fri, 13 November 2009 07:17Ugh, lemme guess, you tried to update MSN and it decided to be a cock and not install all the way but it didn't fully uninstall the old one and now you can't install the new one because Windows Live says it's on there?

Heck, that happened to me with the newer Windows Live... made me mad

I ended up using a lightweight MSN messenger for awhile called PixaMSN.
