No they're not. I suggest you work on the way you relate to females instead of trying to find a replacement game buddy.

Seriously? Have you ever played an online game with a girl?

15 out of the 16 people magically know their mic is working and proceed to small talk constantly. Then when the girl leaves the game so does about 12 of those guys because they have lost the one thing keeping their interest.

And so long as you (And your fellow gamers) continue to see females like this, nothing will change. I still don't see enough of a problem for you to automatically exclude 51% of the population, and the attitude you're taking in this application is contributing to the problem you're describing. It's like someone spamming up RenForums with posts complaining about why this place sucks, when their posts would be the ones contributing to the suck.

Just something that jumped out at me, that's all.
