Infinintna no bugs 1.6 has all the bugs 1.7 has a plug in called a... Spine which helps realy sigenla from my "brain" to my "hand" effectivly getting rid of bugs! you must have the 1.0 verson cz thats the only one with blue beam bot, i feel sorry for you, thats the dumbist version: Dumbass 1.0your bot suckors 1.0 maybe had the "blue beam bot" but thats fake i only got the real one and its called the "Blue Beam Rush Bot"
Get over it u suck
