reborn wrote on Sat, 21 November 2009 14:20Reading between the lines here, it looks like Sladewill based his plugin for ftp uploading on jnz's code. The actual download for this plugin has gone missing, and now Distrbd21 is trying to recreate some of the functionality of that plugin using the quoted code in Sladewill's post.

thank you i couldn't think of away to say it.

i always piss someone off when i say stuff like that idk why
