I totally agree.

Lets face it, what game has EA assisted in creation that even the final version of was bug free.

Moreover what game have they made that on its release had 0 bugs lol.

I bought Battle Field 2 on EA downloader and they only sent me one of the two CD keys I need. Upon researching I found that many other people have been screwed over just like me, and even after e-mailing them 5 times they never helped me, or anyone else that I read about.
