Aprime, Vlad spent alot of money and countless hours working to keep the Community over at Arm-ent alive, dont be so fuckin mean about it, he gave up, but can u really blame him? all he did was help the community grow and be bigger to prolong the CnC gaming world.

P.S. To all Modern Warfare members i will be taking our site off the Arm-ent FTP so we can keep the great layout that Bear made us. We will keep in touch through E-mail, check them for updates on a new site host.
