A page with only my stuff on it. I think game-maps is to messy with bad quality skins all over the place.

I wouldn't mind being it hosted over there to, but I also want like i sayed before my own page.

So add your bad quality skins to their bad quality skins. I mean, what harm does it do to piss in an ocean full of piss?

Well that is just the skin nazi speaking... Even if you don't skins at all you can not deny that Di3HardNL's work is always of a higher quality than the low standards that have been set. Godwins law... You lose.

Meh... I wouldn't say I lose because I referenced nazism. That is to easy...

As a matter of fact I would like to make a new law, Chew's law states that the longer a internet topic goes on, the probality of someone being called gay (faggot) because of their nonsexual related ideas approaches 1.

You could say the same thing about "STFU"...

Nazi comparisons are not nearly as overused as "faggot" or "stfu"... at least not here at Renforums.
