It's no "critical bug" for anyone but you and the others who have the outdated version of Basin.
How many times have I had to write this?

Go to <http://www.cncden.com>. Download Basin from my levels page. Go to the Renegade\Data directory, delete the C&C_Basin.mix\C&C_Basin.thu files and unzip the contents of the Basin level into the data directory. Run Mars again.

Viola, Construction Yard interiors are fixed.
