danpaul88 wrote on Mon, 07 December 2009 18:51 Don't the regular popups begging you to upgrade to the full version of Avira annoy you? I got fed up of them after a few weeks and uninstalled it....

They only come up once a day, and they're easy to cancel out. It's a free program anyways, and I'm more than happy to click a daily popup if it means I avoid having to spend a whole day reformatting and restoring my files due to a virus.

Plus, I recall there being a method of stopping the popups via registry trick or something.
