Renx wrote on Thu, 17 December 2009 23:05TF2 is the only game easier than Renegade. The sniping is almost identical minus the lag. It gets boring after a couple days.  
how is sniping identical? You're in first person, there is no hope of hitting someone far away unless you zoom in and you're actually unable to get a headshot unless you're zoomed in. Have you even played tf2 past a free weekend?
