Xtrm2MattOk, so explain this a bit more... if i cheat, and get 100+ kills ingame.. then WHY, WHY havent i been banned from ANY servers? Why can I still be killed? Your petty vendeta against me proves nothing. I can do more then you 100 times then you can do to me. I have 2 names registerd, Xtrm2Matt and UKsXtrmX (i proved this to aprime last night.. although he didnt see the SS itook), and a million IPs. It doesnt take 2 seconds to register a new nick, and 1 minute-2 minutes to get a new IP. As far as Renegade Serials go, i have over 200 legit serials, so getting EA to try and ban that also does shit.

There is no way you can stop any cheaters. I don't cheat, if i did, you wouldnt be able to stop me either way.

I have just proved in them 2 screenshots. Want me to take a SS of my /Data/ dir too?

..wonder how long this topic will go on for :rolleyes:

This is how a cheater acts. you aren't proving your case, just backing into a corner.

Stop the idiotic threats, because:

- A. You can't carry them out anyways
- B. umm, it's a video game
- C. How are you, a preadolescent, going to beat up a thirty one year old firefighter?
- D. UMM, IT'S A VIDEO GAME

Just comply with the request, prove your case, and continue playing. Don't act like an ass in public.
