pointfix easier for gdi? orcas better than apaches on city? unable to adapt even tho we easily raped the league and came up with the only new strategy that pointfix has bought?

oh dear surth, i know you were desperate to jump into this but that was pretty poor. ur best bet wouldve been just to call me a liar like spoony because u could never win a debate arguing about the game, especially when ur on the losing side to begin with.
