Afromn96stop commenting on peoples bad spelling it is just stupid, unless you can't understand it dont say anything, also dont do it becuase it is another thing you have 2 load and if your sig is all graphicy and your avatar is too its just a useless thing that makes 56krs wait longer for.

I don't give a rat's ass about the time it takes for a 56K user to download my signature. It is well within the borderline for size. Same with my avatar.
