Even if it is, I doubt they will change the core gameplay mechanics they have been advocating. i.e, crawlers, no tib fields, no harvs, no bases etc etc  
Yeah, unless they manage to throw in a new multiplayer game mode, it doesn't look too promising. I can deal with the crawlers thing, and the no tib fields (despite tiberium being a huge story thing), and the no harvs. But no bases? What?

And the scale in general seems so much smaller... unit caps, etc. That's just bullshit.

I like the LOOKS of things, and I like how they're placing emphasis on more tactical combat- but they don't need to get rid of bases and make it feel like an RTS version of battlefield...
