Reaver11 wrote on Sat, 09 January 2010 09:12l really love that reason from EKT.

'We have our own anti-cheat'

And they never want to share the program nor does any EKT member want to explain what it is.

Do you care to explain what it does?

Because I myself am very sure it does nothing and is a big bad excuse.

I'm pretty sure it's the "TAKE A SCREENSHOT NOW" anti-cheat method
