ScrinProdigy wrote on Sun, 10 January 2010 08:49: This is my HUD that I make for Renegade, WIP.

It was taken from old RenegadeX screenshots.

I also plan to add health indicators for buildings (icons and stuff).

Right now it is for my personal use.

Do you have permission from Renegade-X team?

Nice idea by the way.

You might want to lower down the size of the textures since renegade lags on high quality textures. The polygons in my opinion are fine.
