BBC - 10/12/09

Unless you're going to accuse my state media of lying (which I can at least do...)

No free media, no YouTube - I reckon they'd more than happily interpret the hypothetical "Islam Sucks" blog as an insult to the state... (If only to keep the peace, but hardly a peace - see the quote by Ben Franklin (IIRC) about liberty and security)

Edit - (Probably) less biased - Wikipedia on human rights in Turkey
