thanks for your comments and appreciation even if the colour scheme isnt your bag.

@HaTe

thanks, probably not im affraid, i dont have time to spend on these things that often, this took me 6/7 hours to do, i NEVER have that much time to spare so i thought id give it a go

@ George Z

im not sure if you know, but ive done all the others like this too, youd have to go back a few pages in this forum to find them all tho, and what do you mean by "clean" ?

@ Good-One-D

I will make a pack soon, only 4 left to do, Harvester, APC, Recon Bike, Cargo Plane.

@Glock

haha don forget lil ol me , i do like the racing stripes i was going to just put squares and triangles on it instead but i decided not to, and the turret was a bit difficult to make look like that without ruining the texture or making me have to do LOTS of extra work. paid off tho i see
