As many of you are aware, this Friday, February 26th, is the birthday of C&C Renegade. On this day, we would also like to invite you all to ReneGame 2010. Just like last year, Renegade X will be hosting a game of C&C Renegade to celebrate its 8th birthday. This year, the server being supplied by our friends at MP Gaming.

The purpose of the ReneGame is to simply enjoy a good ol' game of the original C&C Renegade, the game that we are remaking. This will be our third annual ReneGame, and they've all proven to be quite a blast. Play with developers from the mod, as well as fellow C&C Renegade & Renegade X community members.

The event will take place at Friday, February 26th, at 4:00pm EST (Eastern Standard Time). The server name will be "[MP] ReneGame 2010". More server information, including its IP, will be provided this Thursday. We'd like to ask you all to come 10 minutes early if possible

We would like to highly recommend every participant of the ReneGame '09 to use Teamspeak 2. To download the teamspeak 2 client, simply go to http://www.teamspeak.com/?page=downloads&archive=1

The purpose of using Teamspeak is to maximize teamplay and therefore push C&C Renegade's gameplay to its very limit. Teamplay will be key for this game, to achieve the highest potential of organized action. We will be using the Renegade X teamspeak server. The TS2 IP is 75.126.220.122:8769. Server information, IP, and direct-connect info will be released on Thursday, probably sometime in the middle of the day, so visit this thread on Thursday to get this vital information!
