Di3HardNL wrote on Sun, 28 February 2010 14:51there are no vis problems that i know of, i made the sky darker because it made the tunnels look better. after that i added a little light inside the tunnels.

might made it a little to dark, but like i sayed i am not going to fix it because of the shitty LE work i would have to do all over again.

guess i'll just have to deal with it and use it anyways =3
