i don't have acces to LE i think i saw the texture once.. it had both textures on it. But i want to make something similar, 1 w3d and 2 textures. I still have no idea how to do it, how to combine the textures etc. Any help?

Hmm...wonder where I've seen that before. Also, I don't think it's possible, so you'll have to have a neutral team briefcase/plain briefcase.
