OK so i made a Death Match map with Tib Silo's and i have them working the text says when it's under attack and destroyed BUT Eva does not say it is, how do i fix that i know its probably a stupid thing I'm over looking, I have looked for tuts on it i remember seeing one, but i haven't been able to find it, but I'm still looking.

So if i don't post here editing this post saying found it no need to reply, then that means i haven't.
