I heard they are going to drop "the cake is a lie" meme.

However, I've read a lot of funny content about the game in gameinformer. Like some of the diagrams featuring new ways to use portals. Such as the "Pneumatic Diversity Vent" which is basically just a giant suction tube but they made it very clear that the ventilation shaft was not "discriminatory" in any way.

Also the "Thermal Discouragement Beam" which is used to thermally discourage things that cross its path.

Fine print on the last diagram if you can't read it:

"If permission to look at this diagram has been granted, please do so now, unless the box labeled 'DO NOT LOOK AT THIS DIAGRAM' on the 'Diagrams Forms Sanction' form you should have received from your supervisor is checked, in which case you should remain at your work station not looking at the diagram until such time as you are instructed by your supervisor to discontinue not looking at it."
