AircraftkillerNot only does it look cartoonish and ugly, but it's based in the same tired old "orcs versus humans" bullshit that everyone and their dog has made a game out of.

It's getting old.

I'll pass.

- 1) it looks A lot better then renegade and you complain that ppl say renegade gfx suck and then its all about the gameplay... well savage gameplay is better then renegade had.
 - 2)There are no orcs. Its human vs beast. I hardly played Warcraft so i don't even care if it is a bit the same. You gonne complain when TT is again nOd vs GdI?
 - 3) it 0wnz.
