Goztow wrote on Thu, 01 April 2010 07:58 Not as hilarious as the people claiming they need to have the right to change their nickname. It's a bit like saying you need the right to change your first name in real life... Just a bit of course.

Funny you say that, because the majority of people do actually have the right to change their birth name. Of course they have to go through the proper channels, and inform utility, bank, etc of the name change, but it's still perfectly legal.

I'm against the one nick per install, a group of nicks like CarrierII suggested is a good idea though.
