hey i downloaded level files to edit them..
i did this tutorial on undermap...
http://renhelp.laeubi-soft.de/index.php?tut=70
i dont no how to make a startup spawner and i need to it says..
and i want to try it.. i exported it.. i go lan.. map.. under-new.pkg.. there no map....
its because its a lvl file.. how do i change so i can play it?? and how do i add startup spawner for
the mammoth??

ouh and if you could recomend any good ai bot tutorials that would be great please help asap..
