Hate,

First off your a fucking retard. Do you understand why Xpert doesn't likes theses forums because everyone in ren hates his fucking guts. He is a pathetic, poor, mcdonalds employed, piece of shit that hacks peoples facebook and emails because the said person posted a picture of xpert on the forums. Does THAT constitute hacking a password off IRC to make himself feel a bit better about his feeble self. Please don't come on here and defend Xpert when you have no idea what has happened. You know his side of the story. You don't understand nor can you comprehend the situation and what has lead up to it. I urge shaitan to post the logs on here just so your theory can go up in smoke like the rest of the bullshit that comes out of your mouth. Enjoy your community of 5 people and we will see how long they stay once Xperts new "Mod" (LOL) is implemented.

Thank you.

Go fuck yourself.
