Hate you're an idiot, I already explained to you what happened, you decided that you had no idea what was going on and that I didn't deserve it, and now you're going to uncover that hatchet again? You really do need attention huh.

He hacked my e-mail and my facebook... made my status something about sucking penis etc which I don't really appreciate because I do have friends outside of the internet. But it's understandable that you'd know nothing about that. :/ He took my email and my facebook for about 3 days total. Which is quite a long time.
