While I don't necessarily want to get into a huge debate on here and I don't quite understand all the circumstances of the split ... I hope Xpert the best for his new community ... I'm not going to bother him, even though I did make some remarks on atomix-gaming about his choice of staff... I don't really see how they can be kissing that much ass to just brush everyone under the rug like dirt but oh well. I don't know the full story.
